

ADDENDUM NO. 1

RFP#2025-06 – Residential Solid Waste Collection, Transportation, and Disposal Services
Village of Spring Valley

Date: December 1, 2025

TO: RECIPIENTS OF THE REQUEST FOR PROPOSALS
FROM: ROCKLAND GREEN
DATE: December 29, 2025
SUBJECT: ADDENDUM NUMBER 1

This Addendum No. 1 shall be part of Request for Proposals No. 2025-06 for Residential Solid Waste Collection, Transportation, and Disposal Services for the Village of Spring Valley issued by Rockland Green on December 1, 2025 ("RFP"). The following questions were received from proposers. Responses are provided below for clarification.

Question 1:

Page 29 of the RFP-2025-6 states the contractor shall provide once-a-week pickup for excess bulk stored by Rockland Green, with containers provided by the contractor at the DPW facility. We interpret this as a scheduled weekly pick-up. Is that assumption, correct?

Response:

The contractor shall provide removal of the DPW container on an on-call basis, up to once per week, when requested by the Village DPW and/or Rockland Green. There is no mandatory scheduled weekly pickup. The container shall only be pulled and serviced as needed based on DPW/Rockland Green notification to avoid unnecessary hauling and charges.

Question 2:

What day during the week is the DPW picking up the bulk so we can coordinate a pick-up of the roll-off container at the DPW facility on a weekly basis?

Response:

There is no designated or recurring pickup day for the DPW container. The contractor's responsibility is limited to responding to on-call requests from the Village DPW and/or Rockland Green for container removal. The container shall be serviced only when requested, and not on a standing or scheduled basis.

Question 3

Is Rockland Green going to extend their hours on Saturdays so that the contractor will be able to dump the recycling trucks?

Response:

Rockland Green's facility hours remain as published. Any request for Saturday access must be submitted in advance and may be granted only if operationally feasible. Contractors should plan routes based on existing facility hours unless otherwise approved.

Question 4:

Section 4.2 states there will be no collections of any kind on Saturday and Sunday, except municipal waste baskets.

Response:

Section 4.2 is hereby modified by this Addendum. There will be no collections on Saturdays or Sundays except for:

Municipal waste baskets, and

Residential commingled recycling (paper and bottles/cans) as shown in Table 1, which is scheduled for Saturday pickup.

All other residential and bulk collections remain prohibited on Saturdays and Sundays unless Rockland Green provides written authorization.

Question 5:

Table 1 calls for recycling pickup on Saturday for commingled paper and bottles/cans. This is inconsistent with Section 4.2. Please clarify.

Response:

Table 1 is correct. Residential commingled recycling (paper and bottles/cans) will be collected on Saturdays as indicated in the service schedule.

This Addendum formally revises Section 4.2 to allow Saturday collection only for municipal waste baskets and for commingled recycling as set forth in Table 1. All other residential and bulk collections remain prohibited on Saturdays and Sundays unless otherwise authorized by Rockland Green.

Question 6:

Please explain the discrepancy between the current number of units billed and the proposed units. Also, please clarify multi-structural units and residential condominiums, as shown in the attached assessor table.

Response:

Attached is the **updated** pricing form that includes 411 (Apartments). The proposed unit counts in the RFP are taken from the Updated Certified Assessor List / List of Designated Dwellings (Appendix F) and supersede historical billing data. Variances between "current" and "proposed" reflect updated assessor records, correction of prior rounding, and normalization of unit types.

Multi-structural units refer to multiple dwelling structures located on a single tax parcel (e.g., multi-building residential complexes).

Residential condominiums are counted per individual condominium dwelling unit, not by building.

Proposers must use the unit counts shown in Appendix F.
