

# Interactive Zoom/Google Classroom Presentations

**Find out what happens to our trash, how recycling really works, learn how to Compost at home or how to start a Composting Program!**

**Also, how to properly dispose of Household Hazardous materials and other important issues affecting our environment in Rockland County.**

## Who can book a presentation?

- Rockland County private and public \*Elementary, \* Middle and \*Senior High schools, and
- \*Rockland County Colleges, \*New York State Colleges & out of County schools.
- Adult groups (such as civic, senior, garden, residential and other interested groups)
- Presentations are available to schools and organizations outside of Rockland County with approval

## When are the presentations given?

Monday through Friday – for weekend events please contact us at 845-753-2200 extension # 634

## How long are the presentations?

The presentation is customized for each group

## Who will be conducting the virtual presentation?

A Waste Educator conducts the entire virtual presentation

## What will we discuss during the presentation?

- The interactive presentation begins with a PowerPoint introduction to RocklandGreen
- Find out how our waste is handled in Rockland County: recycling, trash, hazardous waste, and leaf composting.
- A short video viewing how the recyclables: paper & cardboard - plastic, metal, glass & paper cartons are sorted before they are sent to **re-manufacturing** facilities to be made into new products.
- Though an interactive discussion the students, residents and members will have a good understanding of Rockland County's waste management programs, environmental concerns, and solutions.

**For more information or to schedule a presentation, contact Jennifer Sheridan at 845-753-2200 ext.634 or email [jsheridan@rocklandgreen.com](mailto:jsheridan@rocklandgreen.com)**

**\*\*Teachers ask about the free give-a-ways for your students!**
